Rationale to Apply

When I first landed in Sydney and the following 2 years were just love for the city, the country & the people. I would have loved to stay behind and contribute to the growth of this new home, but unfortunately my grandfather was suffering from cancer and I had to reject the offers after my MBA and come back to India since we were very close.

My grandfather after years of fighting unfortunately took his last breath in the middle of this year. Now, I am planning to move to Australia for good and be a part of this rich, diverse and great culture calling it my new home and contributing in the growth of this country that has given me so much in such little time.
